HOW IT WORKS:

As exciting baskets or items are presented and described, you decide if you'd like to bid on that item. Bids will be one or two quarters. If you are interested in an item, hold up your paddle or paddles and place one quarter **per paddle** in your table's kitty. Kittys will be taken and emptied prior to announcing the winning number. (For each paddle purchased, a chip with the corresponding number is placed in a large bowl. After bids are placed in the kittys, the chips are mixed and one is pulled Bingo Style. If your number is called and you did not bid, simply call out "NO BID.") If an item is a two quarter bid, you are expected to place two quarters **per paddle** in the kitty. (You do not always have to bid with all of your paddles.) A few items will be premium items which will entail a \$1 bid.
